Boys' School Suits

A Big feature of this line of Clothing
for Boys is the fact that our
Boys' Suits have the wearing
quality. They are smartly tailored, having
a marked distinction of character. These
are Suits that the most fastidious boy will
like, and are able to offer them at prices
almost as low as the present day manu-
facturing price. All sizes from seven
years to sixteen.

Wheat Yield About Eighty Millions

It looks now as if there will be
nearly as much wheat in
Alberta this year as there was last
year of all kinds of grain combined.
A fairly safe estimate of the 1920
wheat crop put at 113,000,000 bushels
and the 1919 total grain
yield was 113,199,515 bushels.

This is the official statement of
last year's harvest as given in the
annual report of the department of
agriculture, which has just been
issued from the press.

The total crop area last year was
5,765,191 acres, which was some
what less than in either of the two
preceding years, but five times
the acreage of 1910.

Nineteen-nineteen, from an agricul-
tural standpoint, is spoken of in
the report as a year, but in
which the known sources seem to
have maintained its volume and
importance. In the livestock branch
the policy of encouraging
farmers to raise their own feed
is being pursued by the government
and the horse market is shown
to have improved, and the
horsemen are well pleased.

The horse market showed but little improvement, and
the average value was 100c, but
increased with the prevailing
conditions.

An increase in the sheep
population was reported however,
the number being given at 400,000.

Alberta's only mountain, the
Mammoth, gives out the
annual product, during the
year, and the total value of dairy
products was estimated at \$11,025,000.

Fifty-three creameries were
in operation.

The poultry branch reports the
value of the egg and poultry crop
of 1919 as about \$5,225,000, and
the number of poultry in the
parks placed at 4,125,733.

A TARIFF AGAINST CANADIAN WHEAT

New York, Sept. 15.—The com-
plete text of the speech delivered
to a California delegation by Sena-
tor Harding, at Marion, Ohio, yesterday
was received here today, showing that
the Senate is making a move to
force the possibility of a Repub-
lican protective tariff against
Canadian wheat. "It will be
that a long time before our farm
people will agree to a Canadian
protective tariff policy," he said. He
then included Canadian wheat in a
list of products which he cited, and
which he said "may threaten the
life of" production in the United
States.

MEETING OF CURLING CLUB

A representative meeting of local
holders was held in the Town Hall
Friday evening. Senator Durkin
was in the chair and gave a brief
outline of the structure of the
Ponoka club, and in passing pointed
out that the calling of the meeting
was to consider the advisability of
enlarging the rink. After many of
the members had deliberated on
the royal and ancient game, and
the acoustic conditions of the hall
roundly condemned, the meeting
adjourned about midnight. It may
be added that a committee was ap-
pointed to meet our lumber man-
gates with a view to enlarging the
rink. While some have taken their
departure from us and no doubt will
curl elsewhere, it is felt that the membership will
be enlarged this coming season,
and another rink would be in order,
but then the question of dollars
and cents crops up.

The visitors were entertained by
Dr. E. H. Cooke and staff, and
made a thorough inspection of the
rooms, buildings and patients.

A clinic was conducted by Dr
Cook, this being illustrated by a
number of the patients, the even-
ing being concluded by a super-
vised by the superintendent to
the guests.

Loss To The Farmers. Ponoka School Field Day

The following editorial appeared
in a recent issue of the Morning
Albertan, and should be taken note
of by the Education Bulletin. The
editorial is as follows: If the press and
clergy do it, and if the farmers
decide, but, at all events, Mr
Wood should know what he is talking
about—

"H. W. Wood, president of the
United Farmers of Alberta, is an
authority for the statement that the
farmers in western Canada are los-
ing money on the grain market, and
the Canada Wheat Board is unable
to make up for the added freight
caused by the increase in the rail
way rates. He proceeds to estimate
the loss to the western farmers by
the increase in freight rates at
something like \$40,000,000 annu-
ally, which is an enormous amount
of money."

"H. W. Wood, president of the Canada
Wheat Board, would more than
make up for this vast amount
which has come out of the western
farmers."

"The farmer is made by a man
who knows the inside of the board,
because he was a member
of that body. He is a practical
farmer. His statement has an
interesting side to it, however, in
the form in which he says that the
farmers of western Canada are
losing more than \$40,000,000
because the government is not
answering enough, for no good reason
whatever, the farmer's claim."

"This is a serious condition of
affairs, and one which should re-
ceive the utmost consideration by
the people interested."

MINISTERS ELECTED

R. W. Wigmore and F. B. Mc-
Curdy, recently appointed federal
ministers, won their by-elections
in St. John, N.B., and Cochrane,
N.S., which were held on Monday.
Mr. Wigmore had a majority of
over 4,000, and Mr. McCurdy over
1,300.

MEDICAL MEN VISIT THE HOSPITAL

Twenty-five members of the Al-
berta Medical Association, with
guests from outside points, visited
the hospital for the inspection. They
left, and were loud in their ap-
praisal of what they saw, but
regards the buildings and the
thorough care that is given the
unfortunate inmates.

The visitors were entertained by
Dr. E. H. Cooke and staff, and
made a thorough inspection of the
rooms, buildings and patients.

A clinic was conducted by Dr
Cook, this being illustrated by a
number of the patients, the even-
ing being concluded by a super-
vised by the superintendent to
the guests.

FRIDAY, OCTOBER 1st

A Field Day for the Ponoka
School will be held on Friday,
October 1st. The following is a
list of the events:

High School and Grade 8—Boys'
Events—Races—100 yards dash, 400
yards dash, half mile race, relay race,
Jumps—high jump, high jump, hop,

JOINTS
OF
TOWN AND
DISTRICT

Local News.

Frank Wrightson, of Millot, was a visitor in town Tuesday.

Mr. and Mrs. Joe. Bryan are spending their vacation in Calgary and other points.

Sergt. R. Smith, of Edmonton, has taken the position of messenger in the Canadian Bank of Commerce.

Jas. W. Wakeley, of Ottawa, is the latest addition to the Bank of Commerce staff.

Mrs. T. J. West and daughter, Helen, have gone on a visit to Detroit and points in Ontario.

Joe. Ardell, of Red Deer, was in town Saturday. He reports a busy time at his brick yards, as many are building their homes of brick.

Ben Werner has taken over the agency of the Woodland Dairy, and asks the many patrons to make his acquaintance.

W. Glauser has purchased the jeweler's building and the building occupied by the Calgary Central Cremeries, Chipman Avenue from Thos. McKelevy. He intends to fix the building up, and will have a new store for his jewelery business.

Wm. Todd, who has been chief engineer at the hospital for a number of years, has accepted a similar position at the Holy Cross Hospital, Calgary, and last week moved with his family to Calgary. Mr. and Mrs. Todd are well known in our community, and have many friends who will wish them well in their new home. Mr. Todd's place at the hospital has been taken by Mr. Shaw, of Edmonton.

Applications for judge's certificates, required of certain persons before their names can be placed on the voter's list, may be secured before the district judge in Ponoka on Thursday, Sept. 23.

A special meeting of the Local Council of Women will be held in the Union Church parlor on Thursday at 2.30 p.m. All ladies of town and community are requested to attend, as business at this meeting is of importance.

Information has been received by the Department of Agriculture, Edmonton, from the Canadian Pacific Railway that this company has a large surplus of canning equipment and in view of the heavy crop of grain to be shipped there is a prospect of car shortage later in the season. The department would therefore urge farmers and grain firms to ship as much grain as possible to the head of the lakes during the present month. In doing this the department is not in any way advising people to sell their grain at the present time as this is a matter which each man must decide for himself.

Arrangements are being made for holding a school field day in Ponoka on Friday, October 1st. Full details are given in another column.

The date of thanksgiving has been set for October 18.

About 30 per cent of the grain in our district has been threshed, and while the yield is only fair the quality is No. 1.

For the edification of thousands of our citizens it might be well to say that a Jewish synagogue has been established in Wetaskiwin.

Mike J. Brady left on Saturday for Rochester, where he will undergo treatment at Mayo Brothers for stomach trouble. Mike's many friends will wish him a speedy recovery, and trust that he will soon be back to his business again.

An alarming car accident took place at Home Glen the other day. While H. McCullough, his mother and sister, of Springfield, were motorizing on the road near the Home Glen P.O. the car stalled on an incline, and backing down over a twenty foot embankment, turned over and straddled the narrow banks of the creek at the bottom, thus the party escaped without injury. It was a miraculous escape.

Through an accident to the transformer at the hospital the town was in darkness one night last week, but fortunately repairs have been made. This being such a morally pure and law-abiding community nothing of a desperate nature transpired. A few stock was said to be enjoying the town's hospitality, but what although, our renal con could not see to round them up, and what is more, had he gathered them together it would have been impossible to find the sound. Inconveniences there was of course, and lamps were much in evidence, the pool tables had to be kept a-going, the card games must not be held aside, and the home duties, both sacred and secular must be done to, so light we had to have.

There will be a regular show every Thursday in future in the Express Theatre.

Do not forget the special Rally Day services in Union Church on Sunday.

The party who borrowed the step ladder from W. H. Smith & Son will please return it and save costs.

Lost — Gent's Watch Bob Orange Lodge emblem on one side of locket and initials on the other. Reward — Herald O'fice.

W. H. Smith & Son are selling their first-class flower at \$7.65 when it lasts, as they have to vacate the store room.

Do not neglect your eyes. Do not suffer with headaches and other ailments when you can obtain relief by consulting M. Mecklenburg. At Royal Hotel Ponoka, Friday, Oct. 1st.

London, Sept. 29 — The defense of the Australian government as outlined in the senate provides for the continuance of universal training and for an army of 130,000.

RED PIMPLES ITCHED TERRIBLY

On Chest, Face, Arms, Burned
Bddy. Cuticura Heals.

"Ever since I can remember, my chest, face, and arms were filled with dry, red pimples. They were scattered over my body, but were most numerous on my chest. They would itch at times, and I scratched them, causing them to bleed. I could not get rid of them, and they would go on growing. Sometimes they would itch so severely and form scales which burned badly."

"I used Cuticura Soap and Ointment. I had used them two or three times when I felt better and I was sure they would help. I still have my dog— and a dog is a true friend."

"This moon dropped down behind the hills, and the road was mostly blackened as the trail narrowed."

"In my mind, however, was the thought that I had to get to Catarhoonee together with the Cuticura Soap. (Signed) John D. Hallibut, Ponoka, Alberta, October 19, 1918."

Use Cuticura Soap and Ointment for all toilet purposes. Soap to wash, bathe, shave, etc.

Soap 25c, Ointment 25 and 50c. Sold throughout the Dominion. Call or send for Cuticura Soap without mailing.

"My friends and I are the best because—they are strong and comfortable. I designed them to fit you well, so that you will want to stretch your arms and legs occasionally."

A word to the men in Bob Long line of shirts: "Bob Long says—Ask your dealer for this big shirt. It wears like a true friend."

Ask your dealer for Big 89— the big blue Overall—the shirt that stands the test.

Constant effort is being made by the government to increase the live stock production, to develop the dairy industry, and by the various breeders' associations in the province, to improve the quantity of the stock grown in Saskatchewan, with eminent satisfaction.

Under the Livestock Protection and Sales Act, quantities of pure bred sires and grade dairy herds are obtained by the branch and resold annually to operators on easy terms.

Through the efforts of the stallion board, similar efforts are being made to improve the standard of the herds grown in the province.

While cattle raising for the slaughter market is the dominant industry in the province, dairying, as an adjunct to stock raising, occupies a rapidly growing position in the economic life of the whole province.

There were 1,000,000 cattle in the province when it was established fifty years ago.

At the present time there are about half a million annually if he follows the methods which experience has shown to be necessary for success.

When planting a shelter belt, care should be taken to locate it so that it will protect the home and stock from prevailing winds. Sufficient space should be left between the shelter belt and the buildings to keep the snow from drifting around the buildings and to give room for a lawn and garden.

Many failures have resulted from planting on soil not properly prepared, and to insure as far as possible the success of the trees sent out, the Forestry Branch has issued a circular which should be followed the year previous to planting. In order that the planters may have the benefit of personal instruction, inspectors of the Forestry Branch are available before the trees are furnished.

To secure trees for planting in the spring of 1921 it is necessary that application be made before March 1, 1921, to the Forest Nursery Station, Invermere, B.C.

A very interesting bulletin entitled "Tree Planting on the Prairies," is issued by the Forestry Branch.

The Other Side.

U.S. Federal Agents Are Investigating The Bomb Outrage

New York—W. J. Flynn, chief of the Bureau of Investigation of the United States Department of Justice, who arrived here from Washington in charge of the federal investigators, declared that "evidence obtained it has been definitely established that the bomb which exploded in Wall street was, at a time bomb loaded with explosives and reinforced with metal slugs."

"The bomb was taken to Wall street," Chief Flynn added, "in the wagon which exploded in pieces. The internal machine was found to go off at noon and, apparently, was placed in the wagon by a person who was within four blocks of Wall and Broad streets when the explosion occurred."

The death toll has now been brought up to 35. The number of injured, including those treated at the scene, in hospitals and at their homes, was approximately 300. Nearly 100 of these are still being treated in hospitals.

The property damage is variously estimated from \$1,000,000 to \$2,500,000.

The key to the mystery apparently lies in the identification of the rickety old wagon drawn by an old mule. The wagon is believed to have been the United States Army One and across the street from the Morgan Bank, a few minutes before the explosion occurred. The driver of the wagon is believed to have escaped. Federal and police authorities were concentrating their activities on this place of the case.

Every livery stable in the city is being examined to determine whether a horse or horses, similar to one of the horse's body showed that it had been newly clipped and shod. This and a mark on the horse's shoes furnish the only clues to its identity. Conflicting descriptions of the wagon itself have been given by the police. A currency examination indicates it was of unusual beth, which leads Detective Cliff Coughlin to believe that it was of the type used in transporting crates of eggs. Official opinion is unanimous that it was not the regular type of wagon used in the transportation of powder or explosives through city streets.

Big Increase in Canadian Trade

Trade for Five Months Reached Total of \$1,062,353,170.

Ottawa—Although the grand total of Canadian trade for the five months of the fiscal year which ended on August 31 shows an increase of \$202,329,835, as compared with the same period in 1919, the value of Canadian merchandise imported during the same months was \$309,000,000. The grand total of Canadian trade for the five months' period of the present year was \$1,062,353,170, while in 1919 it was \$861,023,335.

The total value of Canadian exports during the five months' period last year was \$45,300,487, and during the same period in 1919 it amounted to \$474,446,899, being a decrease for this year of \$20,488,202.

While exports are below those of last year, the figure issued from the customs department shows a great increase in the value of goods imported into Canada, as compared with a year ago.

During the five months ending with August 31, this year, the total value of goods imported into Canada was \$507,696,513, while in 1919 the same figure was not only not increased but was \$36,354,398. This is an increase of \$231,436,205 this year. Duty collected on imports this year has already reached the figure of \$90,351,953, as against \$67,046,584 a year ago, an increase of \$23,305,371.

Sends to Manitoba for Farm Help.

Swift Current, Sask.—Superintendent Pacey, of the government employment bureau here, wired to Manitoba for threshing help for this district and expects to have seven or eight hundred additional men needed available in the course of the next few days.

French General Weds.

Paris—Marshal Henri Philippe Petain, commander-in-chief of the French armies in France during the later years of the great war, and the French general who, with the British general, won the battle of the Marne, has married a young figure, was married to Madame Hardon at the City Hall of the Seventh Ward of Paris, says the *Parisienne*.

Detain Report.

Ottawa—R. A. Rigg, agent of the Department of Labor, denies that harvester are finding difficulty in securing employment, but only because those of men who have disregarded orders and gone long distances from Winnipeg.

W. N. U. 134

EXPLOSION CREATES HAVOC IN NEW YORK'S FINANCIAL DISTRICT

New York—A mysterious explosion on Wall street, near Broad, believed by trained United States Department of Justice and Police investigators to have been caused by an internal machine, rocked the heart of New York's financial district, leaving death and destruction in its wake. Six persons were killed, more than 200 injured, and a bank building of J. P. Morgan and Company, the sub-treasury and the assay office were partially demolished and severely damaged in excess of \$1,000,000.

Two minutes after the explosion the stock and curb exchange had closed. Panic and confusion reigned in the heart of New York's financial district.

Thousands of clerks and business men, many of them girls, were scattered through the narrow streets. Scores fainted, fell and were trampled on in the rush.

The few police on duty in the district were unable to cope with the crowds who came in the thousands to the New York and scores of ambulances and fire engines were sent to all to tend to the wounded police stations.

Sub-treasury officials, fearing that an attempt might be made to rob the building, all the windows of which were broken, requested assistance of the police.

The average increase in the freight rates would have been offset in this manner, he stated.

Must Pay Debts Due to Germany

Government Will Collect Sums for Transmission to German Destination.

Montreal—All debts payable by Canadian firms to German and other enemy firms at the time of the war which were unpaid, or payable from that cause to be collected through the Canadian government according to a new ruling by the Government, and to be paid at full value of the German marks, irrespective of its present value. All amounts of \$100 are being collected through the Canadian government by the Canadian government, and to be paid over to the British Government to be transmitted to their German destination. It was stated at the offices of the Canadian Manufacturers' Association that several firms have such debts owing, in some cases running into large amounts of money.

Opinion of U.E.A. President

Says Economical Marketing of Wheat Would Offset Rate Increase.

Calgary—The wheat board had been asked to increase its rates, the whole of the increased burden of freight rates on wheat from the western provinces to Fort William would have been more than offset by the saving which has been effected by the economical marketing of the wheat crop.

Such was the opinion expressed by H. W. Woods, president of the U.E.A. President Woods' estimate is based on the ruling of the Bureau of Statistics of Ottawa of a total wheat crop of 1,000,000 bushels in the three prairie provinces. The average increase in the freight rates

would have been offset in this manner, he stated.

Railway Board Sittings

Dates Set for Western Tour of the Board are Announced.

Ottawa—The Board of Railway Commissioners will hold the first sitting of its western tour in the City Hall at Winnipeg on the morning of Wednesday, October 29. The following morning it will sit at Saskatoon, and the next day at Edmonton, October 31; Prince George, B.C., October 4; Prince Rupert, B.C., October 6; Victoria, B.C., October 11; Vancouver, October 12; Victoria, October 13; Nelson, October 15; Castlegar, October 16; Trail, October 22; Regina, Sask., October 23; Winnipeg, October 25; Fort William, Oct., October 27.

The application of the express rates to be increased is to be taken, at different points, as well as other cases which are yet to be determined for hearing.

Want Penitentiary Probe

Labor Will Request Investigation Into Conduct of Prisons, Jails and Asylums.

Windsor, Ont.—A decision to request an investigation of all federal prisons, jails and asylums, and other federal institutions, was taken by the Canadian Association of the Friends of the Poor.

Chief Inspector Abey reported that he had found conclusive evidence that the Canadian government had been guilty of a long series of iron and other evidences of T.N.T. scattered from the bomb, the iron evidently coming from window weight bars.

Warnings that radicals contemplated the use of the bomb to outrage were renewed over a month ago by a number of citizens of Windsor, who, through the services of the Royal Canadian Detective agency, according to a statement by Mr. Burns, who said he was convinced that the explosion was a premeditated attack and was not an accident.

Chief Inspector Abey and others also expressed the belief that the explosion was caused by a bomb, after examining fragments of metal found in the street in front of the Morgan offices.

Five members of the Morgan firm were members of the Association of the Friends of the Poor.

Buckhorn

Rev. Mr Kaeckla and friends
was a visitor to the Buckhorn dis-
trict last week.

Friends gathered at the home of
Mr and Mrs J. Houghton Sunday in
honor of Mr and Mrs Shone, who
are touring through the country
and visiting friends on their home-
trip from Seattle to Edmonton.

Mr and Mrs Saul Preston and
son were visiting friends at Dug-
ham last week-end.

An enjoyable time was spent at
C. J. Eley's on the 12th, celebrating
the 14th anniversary of their
wedding, and I am sure we all wish
them many happy returns of that day.

G. Beets is busy reaping that
fine looking crop of barley and
wheat near Buckhorn, and soon the
threshing machine will be giving
him his returns for his year's labor.
We wish him good luck.

We are glad that Buckhorn
is now open for duck shooting. It
does one good to take time off and
have some real sport once in a
while.

Remember that preparations are
being made with the C.S.S.C.'s
cooperative to burst the dam that
was started on the Bow River last
week. Come out folks and do not
miss the excitement that is to come
We want you all and a friend.

It's a great pity we cannot enjoy
this beautiful nature these days
with the snow and cold. It
makes the people here sad the fall-
ing of leaves and departing of our
sweet songsters, the birds, and
then, the snow and dancing snow-
flakes. But we are happy to have
a chance to go to the theatre, to
see us, etc., etc. The "master"
work won't be putting out
our strings quite so long, so there's
a good time for young boys and girls.

Many thanks to Mr. and Mrs. G. E.
Fleming visiting Mr. and Mrs. G. E.
Hornbeam, and had a very en-
joyable time.

Horace Collie made a trip to Pon-
oka last Tuesday.

H. Ogilvie was busy several days
last week reaping George Twiss'
fine looking crop of Marquis wheat
we are all very glad to hear of
the success. As a warning from
what might have been a very serious
accident, when the threshing
machine turned on its side, gun-
ning him beneath it.

FOR SALE

A nice bunch of Young Catt.
J. W. Sander, Sec. 9-14-27.
